

THE SCHOOL OF RADIONICS

INTRODUCTION TO RADIONICS

7th & 8th SEPTEMBER 2019

Our Introduction to Radionics course is designed for newcomers, patients of radionic practitioners, complementary therapists and those wishing to train as professional radionic practitioners. It covers all the basics of radionics and is an ideal way to gain an introductory understanding.

Over the two days attendees will:

- Learn about radionic rates and their uses, including simple treatments
- Be introduced to chakras and the subtle bodies
- Learn how to make a basic radionic analysis through dowsing
- Begin to interpret your analysis and see its relationship to common problems

Attendance on this course is compulsory for anyone who intends to train on our Diploma course to become a qualified radionic practitioner.

Dates: Saturday 7th and Sunday 8th September 2019

Venue: Sparsholt College, Westley Lane, Sparsholt, Hampshire SO21 2NF

Cost: £315.00 with lunch and refreshments included on both days
(accommodation available – see booking form)

Please note:

It is necessary to be able to dowse before attending this course. We can help with individual tuition, please contact us for more information.
