

THE RADIONIC ASSOCIATION & THE SCHOOL OF RADIONICS

An Introduction to Dowsing Saturday 28th March 2020

Come to a Dowsing Workshop for a day of fun and practical experience - suitable for everyone whether a healer or just interested to know more.

Dowsing is a way of engaging with our natural intuitive abilities. We will use a pendulum to uncover aspects of health and how to support family members and outdoors we will experiment with dowsing rods looking for earth energies.

This is an ideal opportunity to learn to dowse or improve your skills in the company of other enthusiastic people

Saturday 28th March 2020
11.00am until 4.00pm

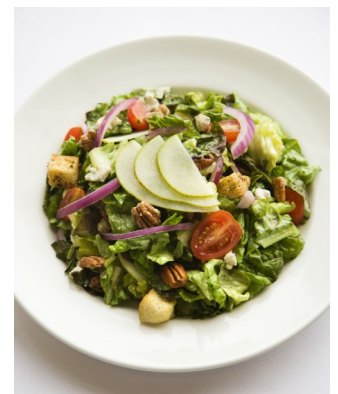

Sparsholt College
Winchester, SO21 2NF

Cost of Workshop
£85.00 to include lunch
and coffees/teas

What can you expect from the Dowsing Day?

- Learn to dowse with a pendulum and work outdoors with dowsing rods
- Dowse over foods to see which are good for you or your family
- Experiment with different colour gels and see what effect colours have on your health
- Learn to identify which supplements or flower essences might help you
- Find positive places in the landscape or search for water
- And so much more.....

A manual supports the day's activities.

For further details and to reserve a place please contact:
